

Bicycle rack with key lock h915_04

Painted steel bike rack, with key lock. Dimensions: W. 1400 x D. 200 x h. 1100 mm. 1 space.

1-space bicycle support for public spaces and common areas, characterized by a **classic and compact design**. Made of **painted steel with two layers of protection**, including epoxy powder and high-quality polyester paint, it is highly resistant to atmospheric agents and corrosion. Equipped with a **key lock** and an **integrated chain for locking the frame and saddle**, it offers excellent security. Once the bike is positioned, the two wheels lock automatically. It requires no special maintenance and adapts to all types of bicycles. Installation is carried out by **anchoring to the ground**.

Technical features:

- Dimensions: W. 1400 x D. 200 x h. 1100 mm
- Spaces: 1
- Material: painted steel
- Painting carried out with two layers: epoxy primer and special polyester paint for outdoors
- Color: as shown in the photo
- Lock openable by key
- Automatic wheel locking once positioned in the bike rack
- Built-in chain for locking bike frame and seat
- Does not require special maintenance
- Installation: to be anchored to the ground
