

Bicycle rack with washed gravel bases h33709

Bike rack in galvanized steel and washed gravel. Versions from 5 to 9 spaces, self-supporting removable structure ideal for urban furniture.

This bike rack represents a functional solution for urban furniture, designed for the setup of safe and orderly parking areas in public and private contexts. Thanks to the combination of **galvanized steel** and side supports in **washed gravel**, the product combines structural stability and a sober aesthetic that integrates harmoniously into squares, parks and commercial areas. The modular configuration allows to respond precisely to different space and capacity needs, while guaranteeing at the same time superior resistance against mechanical wear and atmospheric agents.

Technical features
