## Bicycle repair station h617\_14

Bicycle maintenance and tire inflation station. Retractable tool set. Available in multiple colors.

**Bicycle and e-bike repair station** designed to allow cyclists to perform maintenance on their bikes in case of problems along the road. Suitable for installation in parking lots, along roads near cycle paths, in the outdoor areas of hotels and apartment buildings. Consisting of an **aluminum structure** with a base designed to be anchored to the ground. Equipped with **retractable tools** for bike maintenance and a **tire inflation pump** with universal connection. Each tool is indeed connected to 1 retractable cable that runs in 1 piston. It will therefore be possible to use the tools individually. Thanks to the presence of a specific **support arm**, the bike can be lifted and rested on it, allowing easy accessibility to every part.

### **Technical features:**

- Dimensions: W.44 x D.30 x h.150.6 cm
- Weight: 22/25 kg
- Support arm: 29.5 cm
- Material: anticordal aluminum
- Stainless steel hardware
- Base to be anchored
- Tire inflation pump with universal connection (max 8 bar) and pressure gauge in "glycerin" bath
- Set of retractable tools: 1 Phillips screwdriver, 1 slotted screwdriver, 1 adjustable wrench from 0/22 mm, 2 tire levers, 1 15 mm fixed wrench + 1 13 mm fixed wrench, 1 set of hex keys from 2.5 to 10 mm
- Available in multiple colors
