

Bike rack for public spaces h287_189

Bike rack for urban furniture. Spaces: 5. Metal structure with concrete bases.

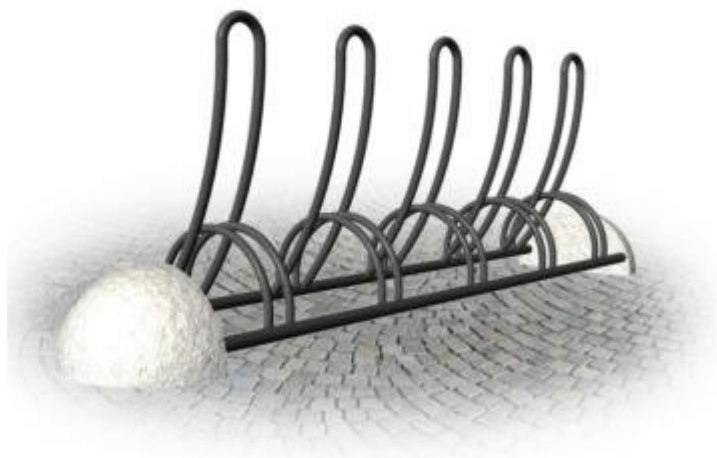

Bike rack for public spaces, to be installed in city centers near public gardens, cycle paths, avenues and seafronts. Structure consisting of: galvanized steel rails, steel chain holders and **white reinforced concrete bases, vibrated and treated against degradation**. Thanks to the presence of the concrete bases, it does not require any type of ground fixing, having a weight that makes it self-supporting and impossible to remove.

Technical features:

- Dimensions: L269 x D60 x H85 cm
- Number of spaces: 5
- Material: steel and concrete
- Fixing: free-standing
- Assembly kit included
