

Bike rack for urban furniture h140260

Double-sided urban furniture bike rack. Equipped with two concrete supports and a helical bike holder element in galvanized steel. Finish: gunmetal.

The **bike rack** represents an indispensable element to complete the furnishing of squares, streets, public parks or condominiums.

The product will allow positioning bicycles in an orderly and practical way.

The rack features a structure composed of **two supports in smooth white concrete** treated with a special anti-degradation protective liquid and horizontal connecting crossbars in round galvanized steel tube complete with support feet.

The **helical bike holder** element is made of oval section tube with the possibility of **parking on both sides**.

The painting technique adopted for the **galvanized steel** structure is thermosetting powders with oven baking.

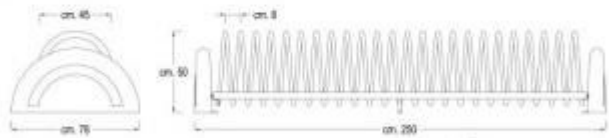

The concrete supports are equipped with plates with holes for anchoring to the ground by means of coach screws and expansion bolts.

Technical features:

- Bike rack
- Double-sided
- 8 spaces (4+4)
