

Bike rack h337_35

Bicycle rack in galvanized and anthracite grey painted steel, with concrete bases for maximum stability. Dimensions: L 266 × D 55 × H 38 cm.

The **H337_35 bike rack** is a robust and durable parking solution, designed for use in public and private areas such as parks, schools, condominiums, and shopping centers. Built with **high-quality steel tubing** Ø 8 cm and **concrete** bases, this rack offers **superior stability and safety**. The galvanizing treatment and **anthracite grey** powder coating protect the structure from atmospheric agents and corrosion, ensuring long-term durability.

Ground installation is required and does not require **extraordinary maintenance** if positioned in environments not exposed to strong corrosion or extreme weather conditions. The elegant and minimal design fits perfectly into any urban or residential context, adding a touch of order and functionality.

Every detail of the rack has been studied to offer **user comfort and maximum safety**, allowing bicycles to be parked in an orderly and safe manner. Thanks to its **concrete bases**, the rack remains firm even in situations of frequent and intense use.

Choose the H337_35 bike rack to organize and improve your spaces. Order now or contact us for more information. Offer your users a reliable and durable parking solution!

Technical characteristics:

- **Dimensions:** L 266 × D 55 × H 38 cm
- **Weight:** 180 kg
- **Accessories included:** Galvanized screws
- **Packaging:** Simple with plastic material (nylon-bubble wrap)
- **Country of origin:** 100% Made in Italy
- **Hazardous substances:** None
- **Disposal:** Bulky waste – check the collection method in your municipality

User benefits:

- **Weather resistance:** thanks to galvanizing and powder coating.
- **Guaranteed stability:** provided by the solid concrete bases.
- **Easy to install:** with assembly kit included.
- **Functional and discreet design:** ideal for public and private spaces.
- **Ecological product:** made with recyclable materials.
- **Made in Italy quality:** synonymous with durability and reliability.

FAQ:

1. **How many bicycles can it hold?**

It can accommodate about 7 bicycles, depending on their size.

2. **Is it corrosion resistant?**

Yes, thanks to galvanizing and powder coating, but use in environments with salt air is not recommended.

3. **Does it require maintenance?**

It does not require routine maintenance if placed in non-corrosive environments.

4. **Is the product made in Italy?**

Yes, the product is 100% Made in Italy.

5. **Is it easy to install?**

Yes, the rack is supplied with the necessary hardware for quick and safe assembly.

Mini buyer's guide:

When choosing a bicycle rack, it is fundamental to consider **stability, resistance to atmospheric agents, and ease of installation**. The **H337_35** is designed to meet these needs, offering a safe and reliable solution. The **concrete bases** ensure superior stability compared to traditional models, while the **powder coating** protects the structure from rust and wear.

If you need a rack for public or private spaces that combines **design and functionality**, this is the ideal choice. Furthermore, thanks to **Made in Italy quality**, you can be certain of purchasing a long-lasting product.
