

Bike rack with apa-bond panel h337_39

Galvanized steel bike rack with apa-bond panel, ideal for public spaces. Dimensions: W 110 × D 50 × H 122 cm. Weight: 15 kg.

This **H337_39 bike rack** with **apa-bond** panel has been designed to ensure maximum resistance and versatility in public spaces. Perfect for parks, schools, urban areas, and corporate parking lots, it combines functionality and modern design.

The structure is made of **D.2 cm steel tubing and 25x25x1.5 tube** treated with **silver galvanization** and **powder coating**, offering excellent protection against rust and wear, even in difficult weather conditions.

The **apa-bond** panel adds an aesthetic touch and can be customized with lettering or graphics, making this bike rack not only a functional element but also an effective means of visual communication. The **black PVC caps** and **galvanized screws** ensure safe and long-lasting assembly. The bike rack is packed in a Havana-colored cardboard box and plastic bags to protect it during transport.

Choose this **H337_39 bike rack** with apa-bond panel to improve the organization of public spaces and add a touch of style and visual communication. Order now or contact us for more information!
