

Bike rack with concrete base h33819

Double-sided bike rack for urban furniture with concrete base. Available in 10 and 14-space versions.

The **removable floor-mounted bike rack** is suitable for placement near urban centers, parks, schools, and stations. It has a **double-sided structure** that allows bicycles to be parked on both sides, minimizing the footprint. The **bike stand consists of a concrete base** and is available in the following dimensions:

- Width 275 cm suitable for 5 + 5 bicycles (total 10 spaces)
- Width 365 cm suitable for 7 + 7 bicycles (total 14 spaces)

Technical features:

- Base structure: sand-colored concrete conglomerate
- Rack structure: black metal
- Double-sided removable structure
- Dimensions 5 + 5 bikes: W.275 x D.75 x H.46 cm
- Dimensions 7 + 7 bikes: W.365 x D.75 x H.46 cm

INFORMATION

- **Material** concrete
- **strengths** amovibili con base in cemento, bi-facciali
- **Typology** al suolo
- **fixing** removable
