Biocompostable drip-saver wrappers h358_07

Umbrella bagging wrappers in certified biocompostable material. Pack of 1000 pieces.

The **h358_07 biocompostable drip-saver wrappers** are the ecological solution for managing wet umbrellas inside stores, offices, and hospitality facilities. Made of **certified biocompostable material**, these bags allow you to combine operational safety and cleanliness needs with maximum respect for the environment. The design includes a **practical top hole** for universal hanging on displays and a perforation system for quick and smooth extraction. The use of these wrappers solves the problem of slippery floors and dripping on goods, offering a sustainable alternative to traditional virgin plastic bags.
