

Black coffee cup bin h1025_03

Black steel coffee cup bin, 70L, Ø35cm. Tubular stacking system and magnetic pictograms for corporate break areas. The **H1025_03 bin** is designed for the rational organization of **waste separation** within break areas, offices, and canteens. It solves the problem of the volumetric bulk of disposable cups and paper waste, ensuring decorum and hygiene in common areas. The **black painted steel structure** integrates an internal management system that optimizes the emptying of the container and facilitates correct disposal by users.

Technical features
