

Black cup stacker and collector bin h1025_04

Steel recycling bin, Ø 45.5 cm, with cup stacking system and separate paper compartment for break areas and high-traffic offices.

The **H1025_04** cup stacker and collector bin represents a professional solution designed to streamline waste management in high-density indoor environments. Specifically designed to solve the bulkiness of disposable cups and paper dispersion, this device facilitates hygiene maintenance in contexts where decorum and operational efficiency are priorities.

Technical features

- **Volumetric capacity:** 100 liters
- **Structural material:** High-resistance black painted steel
- **Upper configuration:** Cover with 3 rigid tubes for cup stacking and 1 central hole for paper
- **Internal compartments:** Independent compartments to ensure clear separation between waste streams
- **Signage included:** 2 magnetic pictograms (cups and paper) for immediate identification
- **Dimensions:** Ø 45.5 x H 70.5 cm
- **Weight:** 8 kg
