

Black hotel ironing board h164_102

Professional ironing board in matte black steel. 94x36 cm breathable surface, 7 adjustable heights, hanger hook and aluminized cover.

The **hotel ironing board** is the professional solution designed to integrate comfort and maximum functionality within hotel rooms. Characterized by a modern design with a **matte black structure** and powder coating, this board combines aesthetics and durability. The surface is equipped with a **dark gray fire-resistant aluminum cover**, a technical material capable of reflecting heat and distributing steam evenly, ensuring fast and effective ironing even for less experienced guests.

The structure is extremely versatile thanks to the **7 adjustable heights** (from 66.5 to 83.5 cm), which allow for ergonomic use for every height. The breathable mesh surface promotes the correct penetration of steam into fabrics, drastically reducing working times. Weighing only **3.60 kg** and featuring an easy opening system, the board is light and manageable, facilitating setup and storage operations. The equipment is completed by an integrated iron rest, a practical **built-in hanger hook** and multi-surface feet that ensure absolute stability on carpet, marble, or parquet.
