

## Black perforated anti-fatigue mat h1043\_29

Perforated anti-fatigue mat in SBR/NBR rubber. Dimensions: 900 x 1500 x 13 mm. EN 13552 Cat. R10 anti-slip certified, with bevelled edges for liquid drainage.

The **black perforated anti-fatigue mat** (model h1043\_29) is a practical and economical technical support specifically designed to improve safety and comfort conditions in the workplace. Developed for **workshops, assembly lines, industrial workstations, laboratories and production departments**, this device is aimed at company safety managers who need to protect personnel subjected to long work sessions in a standing position. The system responds to the operational need to **reduce musculoskeletal stress and prevent accidental falls** due to the presence of fluids on the floor. The mat is made of durable NBR/SBR rubber with a recycled material content of over 33%, ensuring excellent structural strength. The surface features a circular hole configuration with molded elements and is provided with perimeter bevelled outer edges that drastically reduce the risk of tripping during operator transit.

## Technical specifications

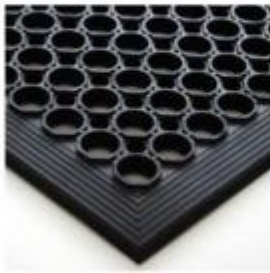

- **Geometric dimensions (WxDxH):** 90 x 150 x 1.3 cm (900 x 1500 x 13 mm)
- **Total weight of the product:** 9 kg
- **Material weave composition:** high-resistance NBR/SBR rubber
- **Walking surface configuration:** circular holes with anti-slip geometric elements
- **Finish color:** black
- **Recycled material content:** over 33% (>33%)
- **Performance index - Anti-fatigue level:** category 3
- **Performance index - Anti-slip level:** category 4
- **Performance index - Wear and durability level:** category 4
- **Operating temperature range:** from -20 °C to +130 °C
- **Safety compliance and certifications:** complies with EN 13552 Category R10 slip resistance test
- **Risk prevention systems:** molded anti-trip bevelled edges incorporated into the profile
- **Water evacuation function:** presence of through holes excellent for drainage of accidental liquid spills
