

Blood collection and vaccine chair h564_40

Three-section blood collection and vaccine chair. Fixed height. Independent backrest and leg section movement.

Comfortable **blood collection chair** ideal for **vaccine stations** made with a Ø35 mm **painted round steel** tube frame. The chair consists of **three sections: backrest, seat, and leg rest**. The seat section is **fixed**. The movements of the backrest and leg rest are **independent** and controlled by **gas springs** consisting of a Ø 28 mm pressure tube and a Ø10 mm rod with an extension force of 500N. The movements are operated via a lever located on one of the chair's sides. Padded polyurethane armrests, folding. Sponge padding, density 30 and height 80 mm, anatomically shaped to prevent slipping of the user. **Class 1 IM fire-retardant sky upholstery** (fire reaction class). Available in various colors.
