

## Blood collection chair h448\_118

Blood collection chair with structure made of chrome-plated steel. Seat height: 60 cm.

The **blood collection chair** is ideal for hospitals and clinics, designed to ensure maximum comfort and functionality. Its structure is made of **sturdy chrome-plated steel**, while the **backrest** and the **footrest** are articulated, allowing them to be manually reclined to a horizontal position for optimal patient's comfort. It is equipped with **adjustable** and **removable armrests**, offering the possibility to easily adapt to the needs of each user. The **synthetic eco-leather** upholstery is fire-retardant, compliant with **safety class M2**, and the internal **high-density foam** padding (25Kg/m<sup>3</sup>) ensures **excellent support** during blood collection. The chair has a maximum capacity of **150 kg**, making it suitable for a wide variety of patients.

### Technical features:

- Upholstery dimensions: 165 x 55 cm
