

Blood collection chair h559_23

Vaccination and blood collection chair with padded surface. Reclining backrest and leg rest. Dimensions: W55 x D175 x H51 cm

Medical chair for blood collection and therapies, ideal for hospitals and medical clinics, also suitable for setting up vaccination stations. **Comfortable, solid and functional**. With a sturdy **white painted metal structure** and **padded surface upholstered in coated fabric** (imitation leather) available in various colors. Equipped with **height-adjustable and tilting armrests** and **adjustable feet** to ensure greater stability. The **backrest and footrest have simultaneous inclination** and can quickly reach the **TR/RTR position**; this movement occurs **mechanically via a gas spring** located behind the backrest. Among the options, it is possible to additionally purchase the convenient roll holder.
