

Blood collection chair with leg rest and wheels with brake h1016_11

Reclining blood collection chair with leg rest and 4 wheels with brake. Height-adjustable armrests. Dimensions: W. 670 x D. 780 x h. 1120 mm. Max capacity: 150 kg.

The **h1016_11 reclining blood collection chair** is an ergonomic and safe solution for blood sampling and outpatient procedures. Designed with an **epoxy powder-coated steel structure**, it combines solidity and resistance to intensive use.

The **backrest reclining up to 175°** and the **adjustable leg rest**, both operated by independent gas springs with a lateral lever, allow the patient to be positioned in maximum comfort. The **seat, backrest, and leg rest padded with polyurethane foam** and covered in **antimicrobial, antibacterial, and antifungal vinyl fabric** offer superior comfort and optimal hygiene. The chromed **armrests** with black polyethylene coating, manually **adjustable in height across three positions**, make the chair versatile and suitable for various clinical needs.

Thanks to the **4 wheels with brake and double-row ball bearings**, the chair is easily transportable and stable in position. **Compliant with European safety and medical device regulations**, it is the ideal choice for hospitals, clinics, and diagnostic centers.

Purchase the h1016_11 chair to ensure maximum comfort for patients and practicality for healthcare operators, with **certified quality and functional design**.

- **Guaranteed hygiene:** antimicrobial vinyl upholstery resistant to biological fluids.
- **Operational versatility:** armrests adjustable in 3 height positions to adapt to different patients.
- **Safe mobility:** 4 wheels with brake for easy movement and stability during use.
- **Durability and robustness:** painted steel structure and high-density padding.

FAQ:

1. Can the backrest be fully reclined?

Yes, it is reclining up to approximately 175° thanks to the gas spring.

2. Are the armrests removable?

No, they are fixed but manually adjustable in 3 height positions.

3. What is the maximum weight supported by the chair?

The chair can support up to 150 kg.

4. Is it easy to move?

Yes, thanks to the 4 wheels of 125 mm with brake and double-row ball bearings.

5. Is the upholstery fire retardant?

Yes, it is made of class M2 fire retardant vinyl fabric.

Mini buying guide:

The **h1016_11 reclining blood collection chair** is the ideal choice for healthcare facilities needing a practical, safe, and comfortable device. Thanks to the **antimicrobial vinyl upholstery**, the **independent gas springs**, and the **mobility on wheels**, it guarantees safety and hygiene in every hospital or outpatient context.
