

Blood sampling chair with 1 armrest and adjustable height h528_25

Blood sampling chair equipped with 1 armrest. Adjustable height (420-540 mm). Capacity: 140 kg. In aluminum and artificial leather.

Blood collection chairs are used in hospitals, clinics, laboratories, and practices to offer patients a comfortable seat during blood sampling. This model features a **polished aluminum structure** with a **5-star base and adjustable feet**. The **seat and the backrest** are **ergonomic** and upholstered in **artificial leather, available in various colors**. Included in the supply is **1 armrest which can be adjusted and fixed in height, inclination, and direction of rotation**, adaptable to each patient. The **backrest is adjustable in height and inclination**. The **seat is swiveling and height-adjustable from a minimum of 420 to a maximum of 540 mm**, via a **gas spring and manual lever** located on the right side. As an **optional accessory**, it is possible to purchase a **1700 mm stainless steel IV pole, with 4 hooks and an armrest**.
