

Blue tool wall panel h965_30

Blue perforated tool panel in scratch-resistant steel, without shelves. Dimensions: W 120 x D 3.5 x H 40 cm.

The **blue H965_30 tool wall panel** is a practical, robust, and safe solution for keeping tools and utensils organized in **workshops, workbenches, shelving, or covered outdoor environments such as garages and gardens**. Designed to offer maximum organizational efficiency, this **perforated steel panel** is painted with an **epoxy polyester coating**, which makes it **scratch-resistant, fireproof, and easy to clean**.

With a compact size of **1200 x 400 x 35 mm**, the panel is **free of sharp edges**, for completely **safe** handling during assembly or daily use. It does not include tools, hooks, or shelves, but offers a **modular base** with standard 26 mm perforation, which allows for the custom addition of compatible hooks or accessories.

It is supplied with a **screw mounting system**, with quick installation in approximately **12 minutes**, and is easily **integratable into existing shelving or workbenches**.

Order the **H965_30 tool wall panel** now to keep your workspace organized or request a quote for large corporate supplies.
