Boat gangway h858_74

Folding aluminium gangway with non-slip teak surface. Length 200 cm, capacity 120 kg, wheels and eyelets for handrail.

The **folding aluminium gangway with non-slip teak surface** is designed to facilitate boarding and disembarking from sailing and motor boats. With an open length of 200 cm, a width of 36 cm and a maximum capacity of 120 kg, it allows passage between the vessel and the quay.

The seawater-resistant aluminium structure combines lightness and practicality of use. The teak wood covering offers a non-slip surface, while the weight of 16 kg and the folding configuration facilitate handling and storage on board. Once closed, the gangway measures 105 x 36 x 15 cm.

The gangway is equipped with **wheels and an anchoring socket**. The eyelets positioned at the ends also allow for the attachment of a handrail rope, offering the possibility of providing an additional support point during passage. The rope, fastening elements and handrail are not included in the delivery.

Technical specifications

- Type: folding nautical gangway
- Structure material: aluminium
- Walking surface: non-slip teak wood
- Resistance: seawater-resistant construction
- Open length: 200 cm
- Width: 36 cm
- Dimensions when closed: 105 x 36 x 15 cm
- Maximum load: 120 kg
- Weight: 16 kg
- Equipment: wheels for handling
- Equipment: anchoring socket
- Provision: eyelets at the ends for attaching the handrail rope
- Items not included: rope, fixings and handrail
- Intended use: sailing and motor boats
