

Boat-shaped planter for Urban furniture h330_26

Urban furniture planter in galvanized steel, 2081x500x750 mm. Monobloc laser-cut nautical design for high strength and aesthetic impact.

This **urban furniture planter** stands out for a modern and dynamic design that recalls the silhouette of a boat, conceived to integrate public greenery and contemporary architecture. The structure is made through a **laser cutting and press-bending** process of a single steel sheet, guaranteeing superior formal continuity and structural robustness ideal for high-traffic contexts. The surface treatment of galvanization and subsequent polyester powder coating ensure excellent protection against corrosive phenomena and the action of atmospheric agents.

Technical features

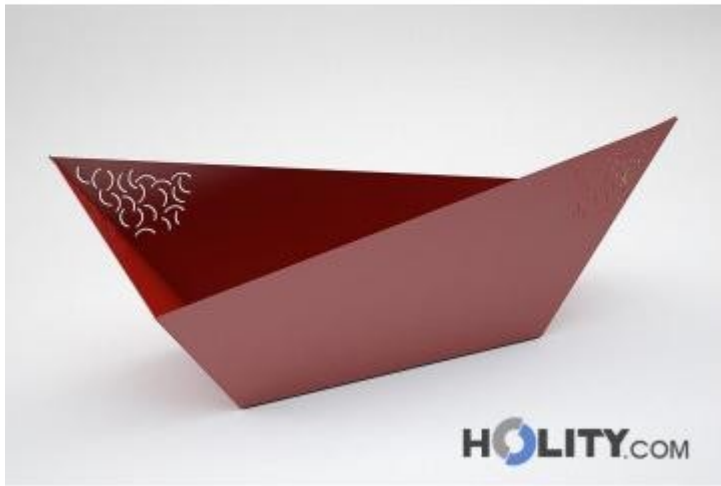

- **Material:** Galvanized and polyester powder-coated steel.
- **Processing:** Monobloc obtained through laser cutting and high-precision press-bending.
- **Dimensions:** L. 2081 x D. 500 x H. 750 mm.
- **Fixing system:** Predisposition on the base with 4 holes (diameter 12 mm) for mechanical ground anchoring.
- **Color variants:** Wide range of RAL colors available (including 9010, 7046, 7016, 1003, 3000, 4010, 5010, 9006).
