

Bobath method couch h581_27

Electric couch for rehabilitation with Bobath method. Dimensions: L.200 x D.120 x h.47-80 cm. Available in several colors.

Examination, massage and rehabilitation couch. Specifically designed for the administration of **Bobath therapy**. It is characterized by its wide surface that allows the execution of exercises and maneuvers that, on a normal couch, would be less comfortable for both the doctor and the patient. Equipped with an **electric system for height adjustment** via foot pedal and **tiltable headrest via gas spring**. The structure is made of metal, while the surface features **fireproof padding and upholstery**.

Technical features:

- Dimensions: L.200 x D.120 x h.47-80 cm
- Hoist clearance: 17 cm
- Load capacity: 200 kg
- Electrically adjustable height with foot control
- Headrest tiltable with gas spring by + 60°
- Fireproof padding and upholstery class: 1 IM
- Padding density and thickness: 30 (kg/m³) / 40
- Available in several colors
- Optional: set of 4 wheels

***Image purely indicative (wheels are not included, add them among the options)*
