

Bobath therapy table h728_08

Professional Bobath table in painted steel, 190x100 cm. Electric height adjustment and fire-retardant upholstery for intensive rehabilitation.

The **specific medical table for Bobath treatments** is designed to meet the advanced needs of hospitals, rehabilitation centers, and physiotherapy clinics. Its wide support surface is configured to facilitate the complex therapeutic maneuvers typical of the Bobath method, offering adequate space for both the patient and the operator. The system is equipped with an **electric motor** for smooth height adjustment, optimizing ergonomics during sessions, while the backrest is manually adjustable via a high-precision **gas spring**.

Technical characteristics

- **Dimensions:** L.190 x W.100 x h.53-85 cm
- **Load capacity:** 180 kg
- **Frame:** Steel with epoxy coating and impact-resistant white painting
- **Padding:** Foam with a density of 30 kg/m³ and a thickness of 5 cm
- **Upholstery:** 100% fire-retardant vinyl certified Class 11M
- **Handling:** Electric height adjustment with remote control
- **Backrest adjustment:** Gas spring system
- **Mobility:** Base equipped with 4 wheels (Ø 60 mm) and 4 stability feet
- **Certifications:** Device with CE Mark

Maintenance notes: To preserve the integrity of the upholstery, it is mandatory not to use solutions containing alcohol, ketones, solvents, or acetates. Cleaning must be performed exclusively with a soft cotton cloth moistened with water and neutral soap. Avoid abrasive sponges or stiff-bristled brushes that could compromise the vinyl surface.
