

Boing graphic bench for children h140_529

Children's bench with "Boing" comic graphics. In matt zinc yellow RAL 1018 painted galvanized steel. Dimensions: L. 80 x D. 30 x h. 30 cm.

The **h140_529 bench with "BOING" graphics** is an urban furniture element designed specifically for little ones, with a design inspired by comic book clouds that stimulates play and imagination.

Made from a **galvanized steel sheet** box 2 mm thick, carefully shaped, it guarantees solidity and durability. The structure is equipped with a **frame at the base** for possible fixing to the ground, ensuring stability and safety. One side is embellished with a **graphic sticker with the word "BOING"**, which gives it a lively and playful appearance.

The **thermosetting powder coating**, oven-cured, ensures a high-quality finish with bright colors resistant to atmospheric agents, making the bench perfect for intensive outdoor use.

The **dynamic shape** and **pop graphics** make this seat a unique and original element, perfect for enriching any urban space with color and cheerfulness.

Make your public spaces more fun and welcoming with the Boing children's bench h140_529. **Contact us to find out how to integrate it into your urban project.**
