

Bollard delimits areas in steel galvanized steel h14039

Bollard for public spaces delimitation made of galvanized steel. Total height 100 cm. Also available with rings

bollard ideal for the delimitation of urban areas, public spaces or Monthly. Product manufacturing strictly artisan stands out for its design and the high quality of materials

Structure:

- bollard made of tubular galvanized steel 114 mm diameter x 3 (bottom) and 89 x 2 mm (top) with intermediate steel decorative turned. The bollard is adorned in the upper part, by a frieze
- Decorative flange to cover the hole for underground installation

Anti-corrosion treatments and finishing:

Pre-treatment:

- before being painted, the building is pre-treated by a spray washing with special degreasing. After washing, the piece to be painted, is dried for 15 minutes in Dryer.

Anti-corrosion treatment:

- in order to impart suitable protection against atmospheric agents, the article is subjected to a first coating cycle using an anticorrosive primer in thermosetting powder epoxy diresine with special pigments.

Before kitchen (anticorrosive):

- the manufactured article treated with the anticorrosive primer is subjected to a first baking period of 15 minutes at a temperature of 180 °. In this phase the anticorrosive polymerizes, forming a coating thickness of about 60 microns

Painting

- , the product was subjected to a final cycle of thermosetting powder coating with polyester resin-based color barrel rifle. The coating is performed with electrostatic spray equipment, which allow the powder to settle evenly on the pieces, forming a minimum thickness of 60 microns.

Glaze firing

- the coated manufacture is subjected to a final baking in the oven for a period of 20 minutes at a temperature of 160 °.

Fixing:

- through extension of the bollard in the subsurface.

Size:

- height 100 cm above ground
- in-ground cm. 20
- weight kg. 11.5

Available versions:

- with opposite rings for the possible engagement of chains

The card images may not faithfully reproduce the actual colors of the items.
