

Bollard for private and corporate parking lots h328_38

Removable bollard h328_38 in painted steel, red and white, 900 mm height, 70 mm diameter, pointed head. For delimiting private parking lots and corporate areas with ground socket.

The **h328_38 bollard** is an effective solution for delimiting and protecting private parking lots, corporate areas, and reserved access points. Built in high-quality **painted steel**, it guarantees high mechanical resistance and long life even in outdoor environments. The **red and white finish** ensures immediate visibility and contributes to preventing unauthorized access.

The **pointed head** strengthens its urban and professional aesthetics, while the **70 mm diameter** and **900 mm height** make it clearly visible and functional in any context. The bollard is **removable via a ground socket**, a feature that allows flexible and safe space management, with removal possible only by authorized personnel.
