

Bollard for public spaces h86_231

Powder-coated steel bollard RAL 7016, diameter 76 mm, height 1200 mm. Ground-mounted installation for the protection and delimitation of urban areas.

The **street furniture bollard** is a solution designed for vehicular traffic management and securing pedestrian areas. The structure is made of **powder-coated steel**, a specific treatment that gives the product high resistance to UV rays and active protection against atmospheric **corrosion**, ensuring aesthetic and functional integrity over time.

The linear design blends harmoniously into diverse architectural contexts, from city streets to historical centers. The upper part features a **steel head** with a thickness of 1.5 mm, welded directly to the tube body to ensure a monolithic structure resistant to mechanical stress.

Technical features

- **Material:** high-strength steel
- **Finish:** powder coating with UV protection
- **Color:** anthracite gray RAL 7016
- **Dimensions:** W 76 x D 76 x H 1200 mm
- **Tube diameter:** 76 mm
- **Head material:** steel with 1.5 mm thickness
- **Joint type:** head welded to tube
- **Environmental resistance:** anti-corrosion treatment
- **Total weight:** 6.5 kg
- **Installation type:** ground-mounting anchor (reinforcement not provided)
