

Bollard for public spaces h86_233

Powder-coated steel bollard Ø 76 mm with white top sphere. In-ground installation for the delimitation of pedestrian areas and public parks.

This bollard for **urban furniture** is designed for the safe delimitation of **pedestrian zones**, park entrances, and limited traffic areas. Made with a **powder-coated steel** structure, the product offers high resistance to UV rays and atmospheric agents, effectively preventing corrosion phenomena. The design is characterized by a slim line that reduces visual impact, topped by a welded **steel sphere** that serves as a distinctive and safety element.

Technical features

- **Total dimensions:** Ø 76 mm x height 1400 mm
- **Height above ground:** 1200 mm
- **Structure material:** Powder-coated steel
- **Finish:** Anthracite grey RAL 7016
- **Top element:** 1.5 mm thick steel sphere, white color
- **Sphere fastening:** Welded directly to the supporting tube
- **Installation:** To be buried via underground extension
- **Extension specifications:** 200 mm long steel, 3 mm thickness
- **Main tube thickness:** 1.5 mm
