

Bollard for urban furniture to be fixed h972_143

Stainless steel 304 bollard for urban furniture, to be fixed to the ground. Dimensions: Ø 10 x H 40 cm.

The **bollard post H972_143** is a **protection element for urban furniture**, designed to ensure the safety of people and vehicles near **dangerous areas, parking lots or zones to be delimited**. It is a protection post in **AISI 304 stainless steel**, a material that offers **high resistance to corrosion** and atmospheric agents, making it ideal for **outdoor installations**.

With a **height of 400 mm** and a **diameter of 100 mm**, the bollard has a thickness of 2 mm which makes it **solid and impact resistant**, suitable for protecting structures, buildings, sidewalks or pedestrian lanes from accidental or unwanted intrusions.

The **neutral gray** color allows for perfect integration with the surrounding urban environment, without impacting visually, but effectively performing its function of deterrence and protection.

The post is designed to be **fixed to the ground** using specific anchors (not included), allowing for a simple and stable installation on various surfaces. No additional covering or finish is provided, as the material itself guarantees **durability and ease of maintenance**.

Buy the **H972_143 stainless steel bollard post** now to improve the safety of your urban spaces, or **request a personalized quote for multiple orders!**

Technical features:

- **Main material:** AISI 304 stainless steel
- **Color:** Gray
- **Height:** 400 mm
- **Post diameter:** 100 mm
- **Post thickness:** 2 mm
- **Fixing:** To be anchored to the ground (fixings not included)

User benefits:

- **Resists:** corrosion and atmospheric agents.
- **Guarantees:** safety in public areas and parking lots.
- **Installation:** simple and fast on various surfaces.
- **Design:** neutral, easily integrated into any urban context.
- **Does not require:** intensive maintenance.

FAQ:

1. Where can the H972_143 bollard be installed?

The post is suitable for urban outdoor areas such as parking lots, sidewalks, restricted access areas, pedestrian zones and to delimit risk areas.

2. **Is the fixing material included?**

No, the fixings are not included in the supply. They must be purchased separately based on the surface on which you intend to install it.

3. **Is the post rust-resistant?**

Yes, it is made of 304 stainless steel, a material known for its excellent resistance to corrosion even in outdoor environments.

4. **Does it need maintenance over time?**

No, the stainless steel post does not require special intervention. Periodic cleaning is sufficient to maintain its aesthetic appearance.

5. **Is it supplied assembled?**

Yes, the post is supplied as a single element ready for ground installation. No assembly is required.

Short buying guide:

If you are looking for a bollard for urban furniture, it is essential to carefully evaluate some features.

Firstly, the **material**: AISI 304 stainless steel, as in this model, guarantees **high durability** and **resistance to atmospheric agents**, making it perfect for outdoors.

Secondly, consider the **dimensions** of the bollard in relation to the space to be protected: a 400 mm high post is ideal for preventing vehicle access without obstructing the view.

Finally, check the **type of fixing**: the H972_143 model is designed to be fixed to the ground, so make sure the installation surface is suitable and that you have the right anchors available.
