

Bollard with hexagonal base for urban furniture h45005

Bollard with hexagonal base ideal for delimiting city areas. Available in various finishes. Height: 810 mm. Base diameter: 310/500 mm

The bollard is an urban furniture accessory ideal for delimiting city streets, public parks as well as condominium areas.

The product consists of a **hexagonal-shaped base** with rounded ends, with a decorative **band** in **copper-colored** painted aluminum.

The **bollard** is made of **reinforced concrete**, vibrated and sandblasted and treated with **anti-degradation**, resulting in resistance and durability over time.

Equipped with an **eyebolt** that allows for the movement of the bollard and eventual anchoring of the chain.

The product is available in a finish of your choice between **lava stone** or **grey washed sand**.
