

Book display unit for nursery school h979_31

Melamine book display unit with wheels and brake. Body: oasis oak, side panels in various colors. Dimensions: W. 900 x D. 500 x h. 1050 mm.

The **h979_31 book display unit** is designed for educational environments such as nursery and preschools, where accessibility, safety, and visual organization of materials are fundamental.

Designed to encourage children's autonomy, this display unit puts books within reach, facilitating an early approach to reading.

Made entirely of **19 mm melamine panel** with **ABS edging**, the unit is built using **high-density three-layer chipboard** (630 kg/m³), coated with melamine-impregnated decorative paper. This combination ensures **resistance to daily wear**, ease of cleaning, and durability over

time.

The **body of the unit is in oasis oak color**, while the **side panels** are available in a vibrant range of colors: **clay red, talc blue, talc green, curry yellow, mocha, white, oasis oak, and anthracite**, to create a cheerful and stimulating educational environment.

Thanks to the **4 polyamide wheels with brake**, the unit can be **easily moved and safely locked**. The 65 mm diameter and 43 mm wide wheels offer a static load capacity of 100 kg and a mobile capacity of 50 kg each.

The **compact dimensions (W. 900 x D. 500 x h. 1050 mm)** make it perfect for classrooms, reading corners, and school libraries. It is supplied **already assembled**, ready for use.

Make books more accessible in your school! Order the **h979_31 display unit** now or request a personalized quote for school supplies.

Yes, it is perfect for reading corners, classrooms, and small school libraries.

5. Is it possible to choose the color of the side panels?

Yes, you can select from eight color variants at the time of ordering.

Mini buying guide:

When designing a school environment for early childhood, every piece of furniture must contribute to the **safety, autonomy, and cognitive development** of children. The h979_31 display unit was created with this goal in mind: bringing little ones closer to reading in a natural, intuitive, and safe way.

A front-facing display allows children to **see the book covers**, a fundamental element for stimulating curiosity and facilitating independent choice. Unlike classic bookcases, which only show the spines, this type of unit makes reading more accessible and inclusive, even for children who cannot yet read.

Thanks to its **reduced height**, it is designed to be usable by preschool-aged users (3-6 years), encouraging daily and independent use. The materials used – 19 mm melamine with ABS edges – guarantee not only robustness but also **ease of cleaning and durability over time**, a crucial aspect in high-use environments.

The presence of **4 wheels with brakes** allows educators to **easily move the unit** based on educational needs, creating dynamic and modular reading corners without sacrificing stability during use.

Finally, the **wide range of available side colors** does not only have an aesthetic function: it stimulates children's color perception and contributes to the creation of a cheerful and functional school environment.

Nursery school display bookcase, children's book display, kindergarten reading unit, nursery school furniture, front-facing bookcase with wheels, book unit on wheels, low nursery bookcase
