Boot cabinet in 304 BA stainless steel h111_127

Boot cabinet in AISI 304 stainless steel, with 2 hinged doors and key lock. Sloping roof for maximum hygiene and adjustable feet to facilitate cleaning. Ideal for HACCP and MOCA environments. Capacity: 10 pairs of boots. Dimensions: W 95 x D 50 x H 215 cm.

The **h111_127 boot cabinet** is a solution designed to guarantee **order, hygiene and safety** in professional environments. Thanks to its structure in **AISI 304 BA stainless steel**, this cabinet is resistant to corrosion and chemical agents and is easy to clean, making it perfect for **food, industrial, pharmaceutical and healthcare sectors**.

Equipped with **2 hinged doors with key lock**, it allows **safe and protected** storage for **10 pairs of boots**. The **20 cm sloping roof** prevents the accumulation of dust and dirt, facilitating maintenance. The **round stainless steel legs** are **adjustable from 12 to 18 cm**, allowing for greater stability and facilitating the cleaning of the floor underneath.

The cabinet complies with **HACCP regulations** for food safety and is **MOCA** certified, guaranteeing suitability for contact with food. Furthermore, it complies with **D.Lgs. 81/2008**, ensuring high safety standards for operators.

Don’t sacrifice hygiene, safety and resistance in your workplace! Buy the **h111_127 boot cabinet** now and get a reliable solution that complies with regulations. Order today or request a personalized quote!

Technical features:

- **Material:** AISI 304 BA stainless steel
- **Dimensions:** W 95 x D 50 x H 215 cm
- **Capacity:** 10 pairs of boots
- **Number of doors:** 2 hinged doors with key lock
- **Sloping roof:** H 20 cm to prevent dust accumulation
- **Adjustable feet:** Height adjustable from 12 to 18 cm
