

Boot sole cleaner with suction and filtering system h14226

Professional industrial sole cleaner with 7 rotating brushes, integrated suction and filtering unit. Dimensions 460x600x1100 mm, dry cleaning.

Professional sole cleaners are essential devices in the industrial sector and professional contexts to ensure rapid and extremely thorough cleaning of work footwear. This system allows for maintaining high hygienic standards, preventing the transport of dirt and contaminants between different operational areas. The device stands out for its **compact design** and a robust structure in RAL 7038 grey, designed to withstand intensive use cycles while maintaining extremely quiet operation thanks to the **round belt transmission**.

Technical features

- **Dimensions:** 460 x 600 x h. 1100 mm
