

Bottle with wall support h20_223

300 ml bottle with black ABS wall support and magnetic closure. Hygienic and secure system for dispensing cosmetics in professional environments.

The **bottle with wall support h20_223** represents an advanced technical solution for dispensing detergents and cosmetics in high-traffic contexts. Designed to meet the needs of **hotel chains, professional kitchens, and hospitality facilities**, this accessory combines organized space management with a high standard of hygiene. The structure consists of a 300 ml white bottle and a wall support in **black ABS**, a material chosen for its resistance to impacts and the chemical stress of detergents.

The innovation of the design lies in the **open circular shape** of the support, specifically studied to prevent moisture accumulation and liquid stagnation, simplifying periodic sanitization operations. The security of the content is guaranteed by a **magnetic key closure** system, which prevents tampering or unauthorized access, making it also suitable for public bathrooms and common areas.
