

Boundary barrier with panel h287_135

Pedestrian barrier designed for the insertion of an advertising panel. Dimensions: W150 x H120 cm

Rectangular boundary barrier for urban furniture. Structure composed of **uprights and crossbeam in 60x60 mm galvanized steel tubular**. Equipped with an **internal frame also in galvanized steel tubular** with a **methacrylate frame** designed for the insertion of an **advertising panel**. The finishes are in **galvanized steel** and subjected to a **pre-treatment process for degreasing impurities** through solutions and vapors, subsequently dried and painted by coating the pieces **with non-toxic powders** and finally subjected to **oven polymerization** to allow the powder to solidify. For anchoring, it is necessary to **bury the structure by 20 cm**

Technical features:

- Dimensions: W150 x H120 cm
- Panel dimensions: W. 130 x H. 60 cm
- Material: galvanized steel
- Fixing: to be buried by 20 cm
- Designed for advertising panel insertion

INFORMATION

- **Length in millimetres** 1500.000000
- **Height in millimetres** 1200.000000
- **fixing** da interrare
