

Breast cancer prevention bench h319_163

Pink concrete bench to raise awareness for breast cancer prevention. Dimensions: L 170 x D 56 x H 68 cm.

The **pink bench H319_163** is much more than a simple piece of **urban furniture**: it is a strong and visible symbol of **prevention, hope and awareness** in the fight against **breast cancer**. With its pink finish, recognized internationally as a symbol of **female oncological prevention**, this bench contributes to raising awareness among citizens on a fundamental public health issue.

Designed for public and private outdoor spaces – such as **parks, squares, schools, hospitals, sports centers and urban gardens** – the bench is made of **high-resistance concrete**, with **internal reinforcement in continuous wire iron** with improved grip. This ensures **exceptional durability**, as well as **anti-vandal stability**, thanks to the weight of 300 kg.

Installing a pink bench means **giving a voice to a cause** and fostering moments of reflection, memory and collective commitment. It is ideal for **awareness events, information campaigns and institutional projects**.

Make your commitment to health and prevention visible. Order the **pink bench H319_163** or ask for a quote for public or corporate installations.
