

Buffet cabinet h684_133

Buffet cabinet in sheet metal and water-resistant laminate (117x75x90 cm). Structure on wheels ideal for catering, show cooking and professional breakfast services.

The **h684_133 buffet cabinet** is an operational module designed for logistical and functional organization in the HoReCa sector. Thanks to the combination of a high-resistance **painted sheet metal frame** and **water-resistant laminate wood** paneling, the cabinet meets the durability requirements necessary in contexts with high user turnover, such as breakfast rooms and catering areas. The configuration on wheels allows for dynamic space management, facilitating rapid room rearrangement for coffee breaks or show cooking.

Technical features

- **Supporting structure:** High-resistance painted sheet metal, RAL 7037 finish (grey).
- **Paneling:** Water-resistant laminate wood, designed to resist humidity and liquids.
- **Dimensions:** W 117.2 x D 74.8 x H 89.4 cm.
- **Handling system:** 4 wheels with a 75 mm diameter, 2 of which are equipped with a pedal brake.
- **Aesthetic versatility:** Panels available in various color variants for integration with existing decor.
- **Stability:** Robust modular structure suitable for static loads and full-load movement.

Options available upon request:

- Customization of the metal structure finish.
- Integration of service risers and corner modules.
- Rear panels, central dividing walls, and side modules with support leg.
- Functional accessories: drawers, cable ports, small doors, and stainless steel top.
