

## C-frame equipable desk size 7 h908\_203

Single-seater table for computer labs in steel and melamine, 80x80 cm, size 7. Ergonomic workstation with C-structure for educational laboratories.

The **H908\_203 single-seater table** is a technical solution designed for the setup of computer rooms and educational laboratories that require high standards of **mechanical resistance and ergonomics**. The individual configuration is designed to ensure an independent and tidy workspace, facilitating interaction between the student and digital equipment.

The distinctive feature lies in the **C-leg structure** made of 40 mm diameter steel tubing. This design not only ensures superior stability during intensive use but also optimizes the space under the top, allowing greater freedom of movement for the user and simplifying the arrangement of hardware components or wiring. With a top size of **80 x 80 cm**, the table easily accommodates monitors, peripherals, and paper materials without exceeding the floor space footprint.

## Technical specifications
