

C-frame equipable desk with 120x80 top h908_206

Computer lab table in steel and melamine, 120x80 cm, size 7 for adults. Ergonomic C-structure for labs and training centers.

The **H908_206 computer lab table** represents an advanced technical solution for the setup of high-density operational teaching and laboratory workstations. Designed with a **painted steel "C"** structure, this desk optimizes user ergonomics by ensuring wide freedom of movement and facilitating the integration of cabling and computer hardware.

The **120 x 80 cm** work surface in ivory finish offers the depth necessary to accommodate large monitors, peripherals, and paper materials, making it ideal for professional training contexts and secondary schools. The configuration of the **40 mm tube** frame ensures excellent structural stability, essential for preventing vibrations and oscillations during intensive use.

Technical specifications

- **Type:** Professional single-user table for IT workstations
- **Structure:** "C" legs in Ø 40 mm tubular steel
- **Frame finish:** Aluminum color powder coating
- **Worktop:** Standard thickness melamine, ivory color
- **Dimensions:** W 120 x D 80 x H 82 cm (Size 7)
- **Intended use:** Secondary schools, universities, training centers, technical offices
