

Cabinet for liquids with 1 hinged door h527_24

H527_24 liquid cabinet in E1 particle board with scratch-resistant MDF door. 5 non-toxic plastic trays, washable surfaces, adjustable steel feet. 65x45x200 cm.

The **H527_24 liquid cabinet** is a storage solution specifically designed to ensure **safety, organization and hygiene** in environments where the containment of liquid substances is critical. It solves the need to store chemicals and liquids in a controlled manner, protecting both the stored materials and the surrounding environment.

The structure is made of **18 mm E1 class wood particle board**, a certification that ensures **low formaldehyde emission** and compliance with European health standards. The **19 mm MDF door with a scratch-resistant finish** provides robustness for daily use in professional contexts.

Inside, **5 non-toxic plastic trays** allow for a logical organization of liquids, facilitating both retrieval and inventory. The internal and external surfaces are **easily washable and disinfectable**, guaranteeing the high hygiene standards typical of healthcare and laboratory environments.

The base is equipped with **4 powder-coated steel feet with a diameter of 60 mm**, accompanied by **adjustable plastic glides** that allow for stabilization on irregular floors and compensation for height differences.

Technical characteristics

- **Structure:** wood particle board panels, 18 mm thick, class E1 (low formaldehyde emission)
- **Door:** MDF with scratch-resistant finish, 19 mm thick
- **Surfaces:** washable and disinfectable
- **Interior:** 5 non-toxic plastic trays for liquid containment
- **Base:** 4 powder-coated steel feet, 60 mm diameter, with adjustable plastic glides
- **Dimensions:** W 65 x D 45 x H 200 cm
