

Canteen table h746_56

160x80 cm canteen table in steel and 19 mm thick water-repellent laminate. Structure with leveling feet, ideal for communal and school environments.

The **canteen table** is designed to meet the requirements for robustness and hygiene needed in high-frequency environments such as offices, educational institutions, and universities. The structural base is made of **steel tube** with 15/10 thickness and a 70x20 mm rectangular section, finished with epoxy powder coating to ensure mechanical and chemical resistance. The 19 mm **water-repellent laminate** worktop allows for quick maintenance and prevents deterioration caused by moisture and liquids typical of dining areas.

Technical specifications

- **Dimensions:** W. 160 x D. 80 x h. 74 cm
- **Top material:** 19 mm thick water-repellent laminate
- **Top color:** White
- **Structure:** 70x20 mm rectangular section steel (15/10 thickness)
- **Frame finish:** Aluminum-colored epoxy powder coating
- **Stability:** Adjustable leveling feet at the base
- **Configuration:** 2 connecting beams for greater structural rigidity
- **Supply:** Product supplied disassembled to facilitate transport

Chairs are not included in the supply.
