

Canteen table with steel legs h908_55

Professional canteen table 140x80 cm with melamine top and Ø40 mm steel legs. Robust and hygienic structure for canteens, schools and break rooms.

The **h908_55 canteen table** is a furnishing solution designed specifically to meet the robustness and functionality requirements of collective contexts. Ideal for corporate canteens, school complexes, break rooms and offices, this model combines a solid load-bearing structure with a large work surface, ensuring comfort and stability during intensive daily use.

The choice of materials is oriented towards maximum durability: the 140 x 80 cm melamine top offers a surface resistant to impacts and scratches, while the steel legs ensure firm support, minimizing oscillations. The essential and clean design allows for harmonious integration into any professional context, while facilitating routine cleaning and maintenance operations, fundamental requirements in high-traffic environments.

Technical features

- **Total dimensions:** L 140 x D 80 x H 76 cm
- **Top:** Made of scratch-resistant melamine with resistant edging
- **Structure:** Ø 40 mm steel tube legs with anti-corrosion protective finish
