

Car parking wheel stop h729_59

Car parking wheel stop h729_59 (small model) made of rot-resistant Class 4 pressure-treated pine wood. Equipped with an 80 mm diameter and galvanized steel ground fixing brackets. Dimensions: L 66 x D 15.5 x H 11 cm.

The **h729_59 car parking wheel stop** is a delimitation and stop device for vehicles, specifically developed for **municipal administrations, public technical offices, employers, urban interior and exterior designers, traffic managers, and corporate safety managers**. This element meets the organizational need to structure parking areas and preserve the integrity of infrastructure, solving the operational problem of **creating an accessible and orderly parking lot, providing drivers with precise physical feedback during maneuvers and preventing vehicles from invading sidewalks, flowerbeds, or colliding with walls and barriers**. In terms of materials, the wheel stop chock is made of Class 4 pressure-treated pine wood, a technical specification that makes the organic material completely resistant to rot, parasites, and atmospheric factors related to continuous horizontal exposure on the ground. The main body has a diameter of 80 mm and is firmly anchored to the road surface via robust ground fixing brackets made of rust-proof galvanized steel. This specific small model features a section with a height of 110 mm, a width of 155 mm, and a total length of 660 mm.

Technical features

- **Product type:** parking wheel stop – wheel stop chock for accessible parking
- **Code reference:** h729_59
- **Model configuration:** small model
- **Overall length:** 660 mm
- **Overall width:** 155 mm
- **Overall height from the ground:** 110 mm
- **Wooden profile diameter:** 80 mm
- **Barrier body material:** pine wood
- **Wood protective treatment:** industrial Class 4 pressure treatment (specific for outdoor exposure in contact with the ground or constant humidity)
- **Material resistance properties:** resistant to rot and biological deterioration
- **Anchoring devices included:** ground fixing brackets made of galvanized steel
- **Installation suitability:** outdoor parking stalls, company yards, commercial parking lots, and public parking areas
