

Stainless steel service trolley 5 shelves h09144

AISI 304 stainless steel service trolley with 5 pressed shelves, multi-directional wheels and 100 kg capacity, ideal for professional catering.

The **h09144** trolley is a professional tool designed to optimize the transport and distribution operations of food, dishes or equipment in high-intensity operational contexts. The structure, entirely made of **AISI 304 stainless steel**, guarantees excellent corrosion resistance and prolonged durability, meeting the rigorous hygiene standards required by the HoReCa and healthcare sectors.

Technical features

- **Structure:** high-thickness AISI 304 round Ø 25 mm stainless steel tubular frame.
- **Shelves:** 5 pressed tray-shaped shelves with a satin finish.
- **Safety:** rounded edges to prevent injuries and facilitate cleaning.
- **Acoustic comfort:** soundproofed shelves to reduce vibrations during movement.
- **Handling:** 4 multi-directional wheels with a 125 mm diameter for smooth maneuverability.
- **Protection:** rubber bumpers positioned at the corners to protect furniture and structures.
- **Load capacity:** maximum overall capacity of 100 kg.
