

Aluminum and plastic service trolley h21592

Professional aluminum and plastic service trolley with 3 shelves, braking wheels and 100 kg capacity. Dimensions 84.5x43x95 cm.

The service trolley **h21592** is a technical solution designed to optimize logistics and operational flows within HoReCa and professional canteen contexts. The hybrid structure, which combines the stability of **aluminum** with the practicality of **high-resistance plastic**, ensures a lightweight yet extremely solid support for transporting food, dishes, and kitchen equipment.

The ergonomic design is reflected in the ease of movement: the four integrated wheels allow for smooth movement even when fully loaded, while the integrated parking system ensures maximum safety during loading and unloading operations.

Technical characteristics

- **Materials:** Aluminum and resistant technical plastic
- **Configuration:** 3 optimized storage shelves
- **Movement system:** 4 swivel wheels (2 equipped with foot brakes)
- **Overall dimensions:** L.84.5 x P.43 x h.95 cm
- **Operating weight:** 14.5 Kg
- **Load capacity:** Maximum capacity 100 kg
- **Finish:** Materials resistant to moisture and professional detergents
