

Steel waste bin trolley h8619

110-liter waste bin with pedal and wheels, stainless steel, airtight bag support, HACCP compliant, ideal for healthcare and catering environments.

The 110-liter waste bin is a container designed for the hygienic management of waste in high-traffic environments with strict cleaning standards. Primarily used in hospitals, nursing homes, professional kitchens, fast food outlets, restaurants, and school canteens, it offers a robust solution for waste sorting and daily waste management. The stainless steel structure ensures corrosion resistance and ease of sanitization, essential requirements in contexts where hygiene is critical.

Technical features
