## Enameled steel laundry trolley h21538

Professional laundry trolley in **enameled steel** with 3 open shelves, upper top with raised edges and side bag holder. Robust 24 kg structure with rubber bumpers, ideal for hotels and resorts.

The **enameled steel laundry trolley** is a high-quality mobile workstation designed to optimize cleaning operations and textile changes in hospitality facilities. The enameled steel structure ensures superior stability and long-lasting resistance, making it a reliable investment for hotels, resorts, and communities that require high operating standards.

The internal organization is designed for maximum practicality: the trolley has **three large open compartments** protected by side panels that prevent clean sheets and towels from accidentally falling. The **upper top**, finished with protective raised edges on all four sides, is the ideal space for safely housing and transporting courtesy sets, bathroom products, and consumables. Completing the technical profile are **rubber bumpers** for furniture protection and a **removable laundry bag**, made of washable technical fabric to ensure maximum hygiene.

## Technical features
