

Stainless steel crate trolley h215143

Professional stainless steel trolley for heavy loads, load capacity 150 kg, dimensions 900x600x900 mm, complete with protective bumpers.

The **heavy-duty transport trolley** is a professional solution designed to ensure maximum efficiency and hygiene in the most demanding operating contexts. Made entirely of **stainless steel**, this tool offers superior corrosion resistance and extreme ease of sanitization, making it ideal for handling heavy goods in total safety.

The structure is optimized for functionality: the integration of **rubber bumpers** protects both the trolley and surrounding surfaces from accidental impacts, while the certified capacity ensures stability even under maximum stress.
