

Foldable platform trolley h12226

Foldable multipurpose trolley with non-slip loading surface. Maximum load capacity 300 Kg

Reinforced sheet metal platform trolley. Indeed, it has a maximum load capacity of 300 kg, with a tubular handle foldable via a simple foot command. When the handle is in a vertical position, the mechanism remains solid and allows for easy steering of the trolley, even when fully loaded, thanks to two solid swivel wheels and two solid fixed wheels, each attached to the platform with 4 sturdy bolts. Semi-assembled (wheels must be mounted).

Technical features:

- Material: reinforced sheet metal
- Tubular handle
- **Foldable via foot command**
- Rubber-edged platform
- Loading surface with non-slip coating
- Solid rubber wheels
- Dimensions: 91 x 61 x H87 cm
- **Maximum load capacity: 300 Kg**
- TUV-GS certified

*purely indicative image; the platform color may differ based on availability
