Luggage and garment trolley h09143

Chrome-plated luggage trolley with garment rail for hotels. Stainless steel structure, black carpet base and pneumatic wheels. Dim. 110x62x198 cm.

The **luggage trolley with garment rail** is a high-end logistics solution designed for the hospitality sector, ideal for hotels, resorts and accommodation facilities aiming for an impeccable reception service. The main function of the device is to facilitate the simultaneous transport of bulky suitcases and delicate items of clothing, solving the operational problem of luggage management in common areas and corridors without sacrificing the care of guests' clothes. Thanks to the combination of a solid wooden base covered in **black carpet** and a **stainless steel** structure, the trolley guarantees stability and protection for every type of load.
